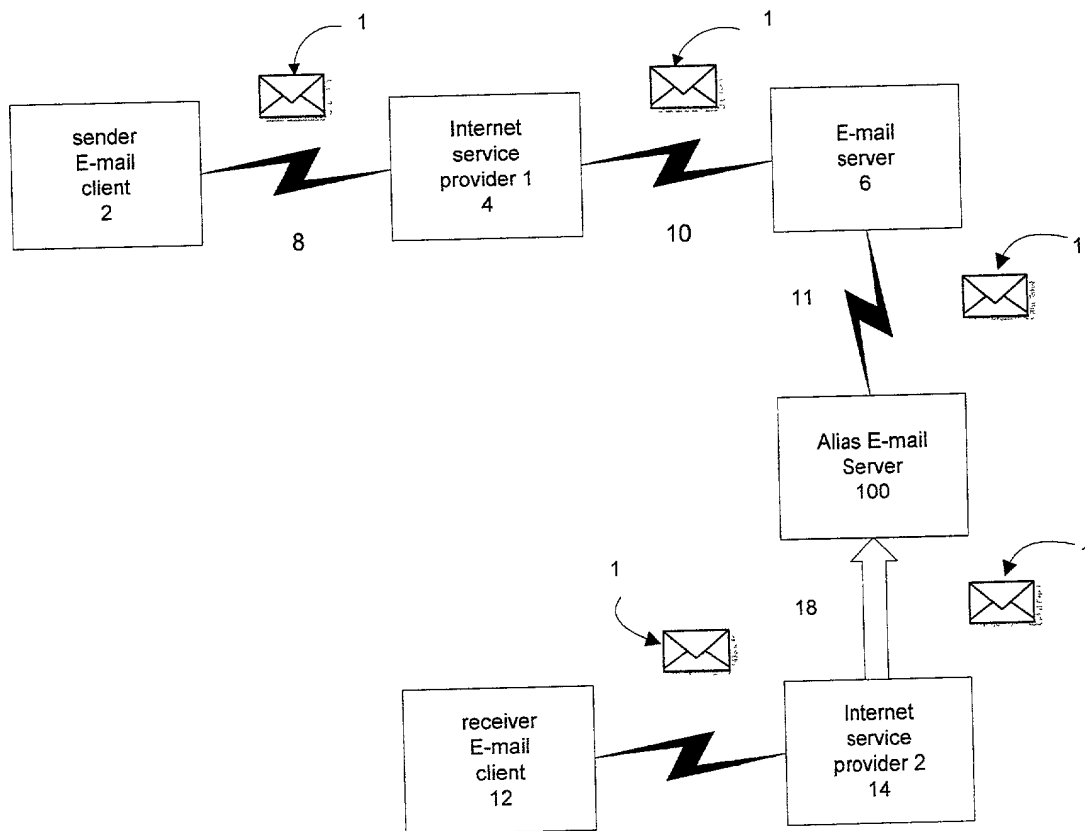

Fig. 2

The screenshot shows a web browser window titled "Spam Motel". The interface includes the following elements:

- 320**: A dropdown menu containing the text "marcus_1".
- 322**: An input field containing the email address "joedoe890@hotmail.com", with the label "e-mail address" below it.
- 324**: A button labeled "View Log".
- A link that says "visit www.spammotel.com".
- An input field for a "password", with the label "password" below it.
- A button labeled "Setup".
- Instructions: "Supply the text you would like associated with this address. Hint: Use something descriptive so you will know who this address was given to."
- A text input field containing "For computer components only".
- Instructions: "Select the text you want to precede all emails forwarded from this Spam Motel Address".
- Four radio buttons labeled "Fwd", "Spam", "Urgent", and "Custom". The "Custom" option is selected.
- An input field next to the "Custom" radio button containing the text "net shopping".
- A button labeled "Create New Address".
- A link labeled "Basic" at the bottom of the form.
